

ABOUT THE BUSINESS

Generated on 21-05-2012

Eurotech Aluminium Castings has 150 employees in Venlo (NL). The business was created in 2008 from the unique combination of the aluminium sand foundry Eurotech Castings and the system supplier Eurotech Systems Parts. This led to the creation of a unique business on the one hand with a deep knowledge of aluminium sand castings and a thorough knowledge of project management, product development and module construction on the other hand. The group works closely with the machine factory and sand foundry Pezag. Pezag has 150 employees in the Czech Republic. This enables Eurotech Aluminium Castings to always make the right choice for the location of a product.
